EDUCATION

K S Institute Technology | Bengaluru, India
Bachelor of Engineering, Computer Science

August 2020 - May 2024
CGPA – 8.0

Govt. M.M Boys Higher Secondary School | Pulwama, India
12th Standard

January 2020
73.2%

N.I.E.T | Pulwama, India
10th Standard

January 2018
89.0%

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, HTML5, CSS3, Java.
- **Frameworks / Libraries:** React.js, Node.js, Express.js, Mongoose, Tailwind, Redux.
- **Databases:** MongoDB, Firebase.
- **Tools:** Git & GitHub, Postman, VS-Code.

PROJECT EXPERIENCE

YouTube Clone Development Using React.js.

- Developed a YouTube clone using React.js, incorporating features such as video display and comment sections.
- Enabled seamless navigation by directing users to a dedicated watch page upon video selection.
- Utilized Redux for efficient state management to handle video data and user interactions.
- Styled the application with Tailwind CSS, ensuring a consistent and responsive design across devices.

Netflix Clone Development Using React.js and Firebase.

- Developed a Netflix clone using React.js, incorporating essential features such as user authentication with Firebase.
- Built a dynamic and responsive user interface using React.js.
- Integrated TMDB APIs to retrieve and display movie data, description, and trailer.
- Employed Redux for efficient state management, handling both user and movie data.
- Designed and styled components using Tailwind CSS for a consistent and responsive design.

Backend Development Project using Node.js

- Developed a full-stack web application for simulating money transfers, leveraging Node.js, Express, MongoDB, and Mongoose for backend functionality, including user signup, sign in, and balance checks.
- Implemented secure user authentication using JSON Web Tokens (JWT) and created RESTful API routes for seamless data management.
- Designed the frontend with React, utilizing React Router DOM for navigation and Tailwind CSS for responsive styling, ensuring an intuitive user experience.
- Enabled users to send money to friends' accounts, with data validation through Zod, ensuring robust and error-free data handling.
